

Dear Colleagues,

Greetings from KAZEXPO IEC, the organizer of international exhibitions in Kazakhstan since 1991.

At present, our company manages seven international exhibitions, including three technical projects — **MinTech-Ust-Kamenogorsk (May)**, **MinTech-KazInterPower – Pavlodar (May)**, and **MinTech-AktobeNefteKhim (October)** — as well as four jewelry exhibitions under the brand **ARU**.

Due to an internal reorganization, we have decided to sell our technical projects held in Ust-Kamenogorsk, Pavlodar, and Aktobe. Taking into account the growing participation of Chinese companies in exhibitions in Kazakhstan in recent years, and their current focus on entering new markets in neighboring countries, we would like to offer our technical exhibition projects — dedicated to mining, metallurgy, power, oil and gas industries — specifically to Chinese exhibition organizers. These projects are held annually in various regions of Kazakhstan.

Acquiring these established exhibition projects will allow Chinese organizers not only to expand their exhibition activities and business reach but also to create a direct and efficient platform for connecting Chinese equipment and technology manufacturers with consumers in Kazakhstan.

For your reference, all of these exhibitions have a long-standing history:

- **MinTech – Ust-Kamenogorsk** since 2003
- **MinTech – KazInterPower** in Pavlodar since 2011
- **MinTech – AktobeNefteKhim** since 2016.

We present brief information about our technical projects in the attached presentation available [at this link](#).

We would appreciate your prompt response, and if you are interested, we will be pleased to provide more detailed information about the exhibitions.

Sincerely,
President of KAZEXPO IEC

M. Moldagalieva
